

Who is the Coalition for Responsible Transportation

- Formed in 2007, CRT is a national coalition of leading cargo owners, trucking companies, ocean carriers, manufacturers and ports
- Dedicated to partnering with ports across the country to implement clean truck programs
- Demonstrate the environmental responsibility of the shipping industry by implementing voluntary emission reduction initiatives

Industry Benefits from SW Drayage

Community Benefit

- Demonstrate our positive commitment to air quality in the communities we serve
- Develop community partnerships in port regions
- Improve the profile of the shipping community
- It's the right thing to do

Shipper Benefit

- Environmental sustainability desirable to customers, shareholders and management
- SWD program addresses critical portion of supply chain
- SW provides national recognition

Carrier Benefit

- Nation's largest shippers have pledged to use SW drayage providers for 75% of their moves
- SWD creates a marketplace advantage for carriers who become SWD partners

Future Benefit

- Future federal air quality standards will require greater emission reductions in port communities
- Shippers and carriers will be better prepared for upcoming federal requirements by taking action now

CRT Clean Truck Financial Model
